PROJECT

- Laptop Price Prediction using python

Built a machine learning model to predict laptop prices based on features like RAM, processor, storage, GPU, and display specifications. Performed data cleaning, visualization, and feature engineering to improve model accuracy. Developed the model in Python and deployed it using Flask for real-time price prediction.

SKILLS

- Good communication skills
- Typing speed
- Team player
- Dedicated
- Fast learner
- Driving skill

Technical Skills

- Python
- C++
- Html
- MS Excel

Achievements

- Received Employability skill(softskills)certificate from "MAHENDRA PRIDE CLASSROOM "from Naandi Foundation.

Language Knows

- English
- Tulu
- Hindi
- Kannada

EDUCATION
